

## Global Supply Chain Security

### Overview :-

Enhancing security of the entire supply chain in the textile and apparel industry has gained increasing importance in global business to protect against the acts of terrorism, piracy and theft. US Customs envisions entire supply chain, from manufacturer to carrier to warehouse provider to broker to importer, to be a C-TPAT certified member over a period of time. C-TPAT certified members will be subjected to fewer security examinations and inspections by the US Customs. This training program is aimed at helping factories in upgrading their skills and to be able to cope with this new business requirement from buyers. Participant will learn knowledge and skills required to effectively manage supply chain security with special emphasis on C-TPAT and CSI compliance.
